Summary

Results-driven Software Engineer with 4+ years of experience in designing, developing, and deploying scalable backend systems and cloud infrastructure. Proven expertise in leading the end-to-end implementation of Order Management Systems (OMS), CRM, and Warehouse Management System (WMS) integrations. Proficient in **Node.js**, **Python**, **SQL/NoSQL** databases, frontend framework **React**, and a wide range of AWS services including EKS, **Glue**, and **DMS**. Skilled in building robust **ETL** pipelines and automating infrastructure with **Terraform** and **Kubernetes**

Skills

Backend Development

Nodejs Express Python FastAPI

Microservices Architecture, Event Driven Architecture, RESTful API Design, ETL Development, SQS

Frontend Development

React HTML CSS SCSS

jQuery

Databases

MongoDB Postgres MySQL

MongoDB DBA, Amazon Redshift DBA, SQL, NoSQL

Cloud & DevOps

Amazon Web Services (AWS), Docker, Kubernetes, Terraform, CI/CD Pipelines, AWS EKS, AWS ECS, AWS Glue, AWS DMS, Jenkins, Bash/Shell Scripting

🔖 Agentic AI

claude, cursor

Experience

Zeno Health

Present - Feb 2024

Software Engineer

- Architected a parallel-process **call center module** that triggers generic substitution pitching alongside warehouse picking; managed the development of automated, team-specific **queues to optimize agent productivity**, which reduced manual intervention by 40% and improved order accuracy.
- Designed and own a custom **Order Processing Rule Engine** that automated complex validation and routing logic, reducing manual order intervention by **40%** and allow stakeholders to automate
- Led the migration of services from old digital ocn architecture to **AWS EKS**, improving system uptime to **99.9%** and enabling the backend to scale automatically to handle a **3x increase** in peak traffic without manual intervention
- Own the end-to-end ETL lifecycle for financial and product data; engineered **AWS Glue jobs** to calculate **gross margins** and store-group **pricing**, ensuring **high data integrity** for 1M+ skus metadata records.
- Led the development of a new Order Management System, improving order processing efficiency by 20%
- Optimized warehouse operations by integrating **Easysol WMS** with custom barcode logic, automating the end-to-end **Picking, Packing, and Billing** flow; reduced manual processing errors by **[30-40]%** and increased inventory accuracy to **99.9%**

Technologies: Node.js, Python, MongoDB, MySQL, Redshift, AWS, Glue, DMS, EKS, Docker, Terraform, Kubernetes, React.js, SQS.

Tablt Pharmacy	Feb 2024 - June 2023
Software Engineer	
Backend Engineer	June 2023 - June 2022
• Architected CRM and order processing pipelines using Node.js and Python to manage high-volume pharmacy transactions. • Streamlined operations by automating return workflows and order lifecycle events, coordinating closely with product teams to meet business requirements. • Managed hybrid-cloud infrastructure, deploying and maintaining services across AWS and DigitalOcean to ensure system reliability.	
Technologies: Node.js, Python, AWS, Docker, MongoDB, MySQL, WMS, OMS, CRM	
Ruptok Fintech Pvt Ltd	June 2022 - June 2021
Process Analyst	
• Integrated Lead Management Systems (LMS) with LSQ using Node.js, centralizing lead data and reducing manual entry errors. • Developed automated BI reports using Python and Tableau, providing stakeholders with actionable insights into process bottlenecks.	
Technologies: Node.js, MySQL, Python, Tableau	

Projects	
<u>Agent-Driven Docker Executor (ADDE)</u>	
Go toolset + Python client for running agent-generated code in isolated Docker containers, with structured feedback for refiner agents.	
Highlights	
• Being used by internal agents for testing of generated code. • Image factory: prepare_build_context, build_image_from_context/path; list/prune/delete agent images • Security: network none by default, 512MB/0.5 CPU, code via put_archive (no shell); LangGraph-ready	

Certificates	
Meta Frontend Professional Certificate -9 Courses	
Meta Advanced React	
Coursera	

Education	
Zakir Husain Delhi College (University of Delhi)	B.Sc. (Physical Sciences)
MM Degree College (CCSU)	M.Sc. (Physics – Electronics)
